SWIMMING STAFF

CHARLIE HOFFMAN, Head Coach

6th Season

Overall Maryland Record: 48-26, .648

Men's Record: 39-22, .639

Women's Record: 9-4, .692

Charlie Hoffman, Maryland class of '72, starts his second season at the helm of both men's and women's swimming at Maryland. Only the second head coach in University of Maryland men's swimming history, Hoffman replaced Bill Campbell in 1976. Campbell retired after 20 years as the Terrapin head coach. Hoffman has continued the winning tradition by running the consecutive winning seasons record to 24.

In 1980, Hoffman assumed head coaching responsibilities for Women's Swimming and in his first season recorded a 9-4 dual meet record.

As a swimmer, Hoffman was a member of four of Campbell's winning teams in addition to competing on the 1969-70 squad which was the last Atlantic Coast Conference team to beat N.C. State. As a four year letterman, Hoffman specialized in the Breaststroke and Butterfly.

In 1974 Hoffman returned to his alma mater to pursue a Master's Degree in Physical Education and serve as Campbell's assistant coach. In Hoffman's first season, he recorded a 9-4 overall record with upset victories over Eastern champion University of Pittsburgh and Ivy League champion Princeton for his first collegiate victory. That same season Hoffman's tankers captured first place honors at the prestigious Penn State Relays. In 1978-79 the Terps recorded a 7-6 overall record along with a surprising second place finish at Easterns. Coach Hoffman's teams have never finished below fourth place at the Eastern Intercollegiate Championships.

As a coach, Hoffman has placed great emphasis on team and individual achievement. Academics have played an important role with the swimming program. The Maryland swimmers have maintained one of the highest Grade Point Averages of all teams on campus. Over the last three years, Maryland swimmers have averaged a 2.5 G.P.A.

Coach Hoffman has also done coaching work at the International level. In 1977, the Partners of America's sent Hoffman to Rio de Janeiro, Brazil to conduct clinics and work with their coaches and swimmers.

An instructor in the Physical Education Department, Coach Hoffman teaches Swimming Pool Management and Coaching Swimming. He received his Master's degree in Physical Education in 1978. Hoffman and his wife Linda are both natives of Perkasio, Pennsylvania.

JOHN WOLSH, Diving Coach
1st Season

John Wolsh returns to his alma mater after serving as diving coach at the University of Virginia for two years.

As a High School All American, Wolsh selected Maryland to pursue a degree in Recreation. While at Maryland, Wolsh was an ACC Finalist and National Qualifier on both the one and three meter boards. Wolsh was Co-Captain of the Maryland team in 1978.

GEORGE CARPOUZIS, Assistant Coach
1st Season

George Carpouzis, the school record holder in all distance freestyle events, enters his first season as a Terrapin coach. Carpouzis has been an ACC and Eastern finalist all four years while attending Maryland. He is currently completing work on his B.S. degree in Physical Education. Carpouzis' main responsibilities will be with the distance and middle distance freestyle.

JOE HANNAH, Assistant Coach
3rd Season

Joe Hannah enters his third season with the Terrapins as an assistant coach. Hannah swam in 1973-77 at St. Lawrence University and Allegheny College where he earned his B.A. degree in Political Science. In 1979 Hannah received his Master's degree from S.M.U. where he was also an assistant coach. Hannah is currently working on his Ph.D. in Exercise Physiology.

RICK DUSCHL, Assistant Coach
4th Season

Rick Duschl returns to Maryland for his fourth season as an assistant coach for the Terrapins. Duschl is a graduate assistant in the Education Department working on his Ph.D. A 1973 Maryland graduate, Duschl was a teammate of Head Coach Charlie Hoffman on the 1969-70 ACC Championship team which was the last Maryland team to win the conference title. Duschl's main responsibilities are in the area of academics.

SEAN REDMOND, Manager
2nd season

ARLENE BACHKOSKY, Manager
2nd season

Hope Cullen	Sr.	Dive	Reading, PA	Holy Name H.S.

MEN'S OUTLOOK

The 1981-82 University of Maryland Swimming Team will be looking to improve upon last years 10-4 record and 5th place finish at ACC's and 3rd place finish at the Eastern Intercollegiates.

Coach Charlie Hoffman, entering his sixth season as the Terrapin mentor will have 10 lettermen returning to this year's squad. The Terps will be led by ACC Breaststroke champion, Kirk Sanocki. Sanocki holds all the Maryland Breaststroke records along with being a 1981 NCAA qualifier in a time of 2:03.89. Sanocki is a former High School All American from Reading, Pa. where he competed for former Terp standout, Sid Burkot. The remaining events look like this for the Terrapin squad:

Distance Freestyle should be strong with Canadian National Finalist, Mark Gillies holding down the top spot. If Gillies stays healthy for a full season, he could rewrite the record books in the 500, 1000 and 1650. Mike Alderson and Steve Goldhirsh should add depth in the distance events along with freshman, Joe Haddon, from Richmond, Va. Haddon has been a Jr. National Qualifier the past two years and could challenge Gillies for the top spot.

Backstroke will have a great deal of depth with Jim Wenhold leading the way. Wenhold established varsity records in the the 100 and 200 events. Look for Robert Neuendorf, Drew Desjardins and Billy Bartle to score heavily in the back events.

Along with Sanocki in the Breaststroke, Dave Welsh and George Schmieler showed great improvement their freshman year and should figure in scoring at ACC's and Easterns.

Butterfly will be strong with two ACC and Eastern finalist returning. Goldhirsh and Alderson should hold down the top spots with Prep All American, Mark Ciabaton challenging. Neuendorf could emerge as the top 100 flyer with his fine sprinting ability and outstanding summer of training.

As for the 50-100-200 Freestyle, there will be some question marks along with inexperience. Prep All American, Mike Nemec is the fastest freshman sprinter in years and could challenge Phil Denkevitz's 50 free record of 21.0 which dates back to 1964. Freshman Chris Camut had the 4th fastest 50 in Pennsylvania H.S. States, but lacks experience. With hard work and dedication Camut could emerge as the top sprinter in the team. Both Nemec and Camut will have to show improvement in the 100 to be a scoring factor at the end of the season.

Neuendorf and Bartle return in the 200 although improvement is necessary for them to score. Steve Heineman and Wenhold will also see considerable action in the Free style events.

Individual Medley is lacking depth, but Sanocki and Welsh can swim well enough to be competitive in this event.

First year diving coach, John Wolsh will have only one returning finalist in Roger Masse. Masse has shown great improvement since his freshman year and should be able to dive with all his competition.

WOMEN'S OUTLOOK

As Coach Charlie Hoffman enters his second season at the helm of the women's program, he is faced with an inexperienced team that includes nine freshman. With only five swimmers returning from last years 9-4 squad, the Terps hope to improve on their sixth place finish at ACC's

Leading the list of freshman swimmers for Hoffman is Debbie Meyer and Betsy Bozzelli. Both Meyer and Bozzelli were Jr. National Qualifiers in Backstroke and Breaststroke respectively. Lisa Unger should be the top Sprint Freestyler on the squad after an outstanding summer Eastern's meet. Butterfly and Distance Freestyle will be handled by National Qualifier, Caroline Barbour and Greek National Butterfly Champion, Stephane Joostema. Carolyn Kaucher and Ellen Murphy will also swim the fly events. Look for Amy Dilweg to compete in Sprint Freestyle and Breaststroke.

Returning swimmers include Evelyn Buswell and Anne Buyer, both finalist in the Breaststroke at ACC's. Other finalists include Wendy Shoyer in the Backstroke and Barb Schmidt in the IM. Carolyn Hunger will swim Backstroke and Donna Tricarico returns in the Fly.

Diving will be a strong event for the Terps with EAIAW one meter diving champion, Melanie Gillet returning for her senior year. Gillet and Suzy Wigetman were both National Qualifiers last season.

If the freshman mature rapidly, the Terps could have an outstanding season and move up in the conference standings.

THE UNIVERSITY OF MARYLAND

The University of Maryland was founded in 1807 in Baltimore as the College of Medicine, a facility-owned institution granting the M.D. degree. It was the nation's 5th medical school.

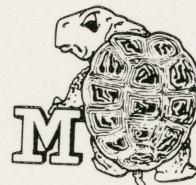

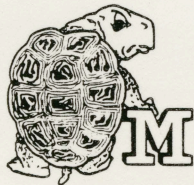

Its name was changed five years later to the University of Maryland, and it was given power to confer additional degrees. The Baltimore College of Dental Surgery, the country's first dental school, became part of the University in 1840.

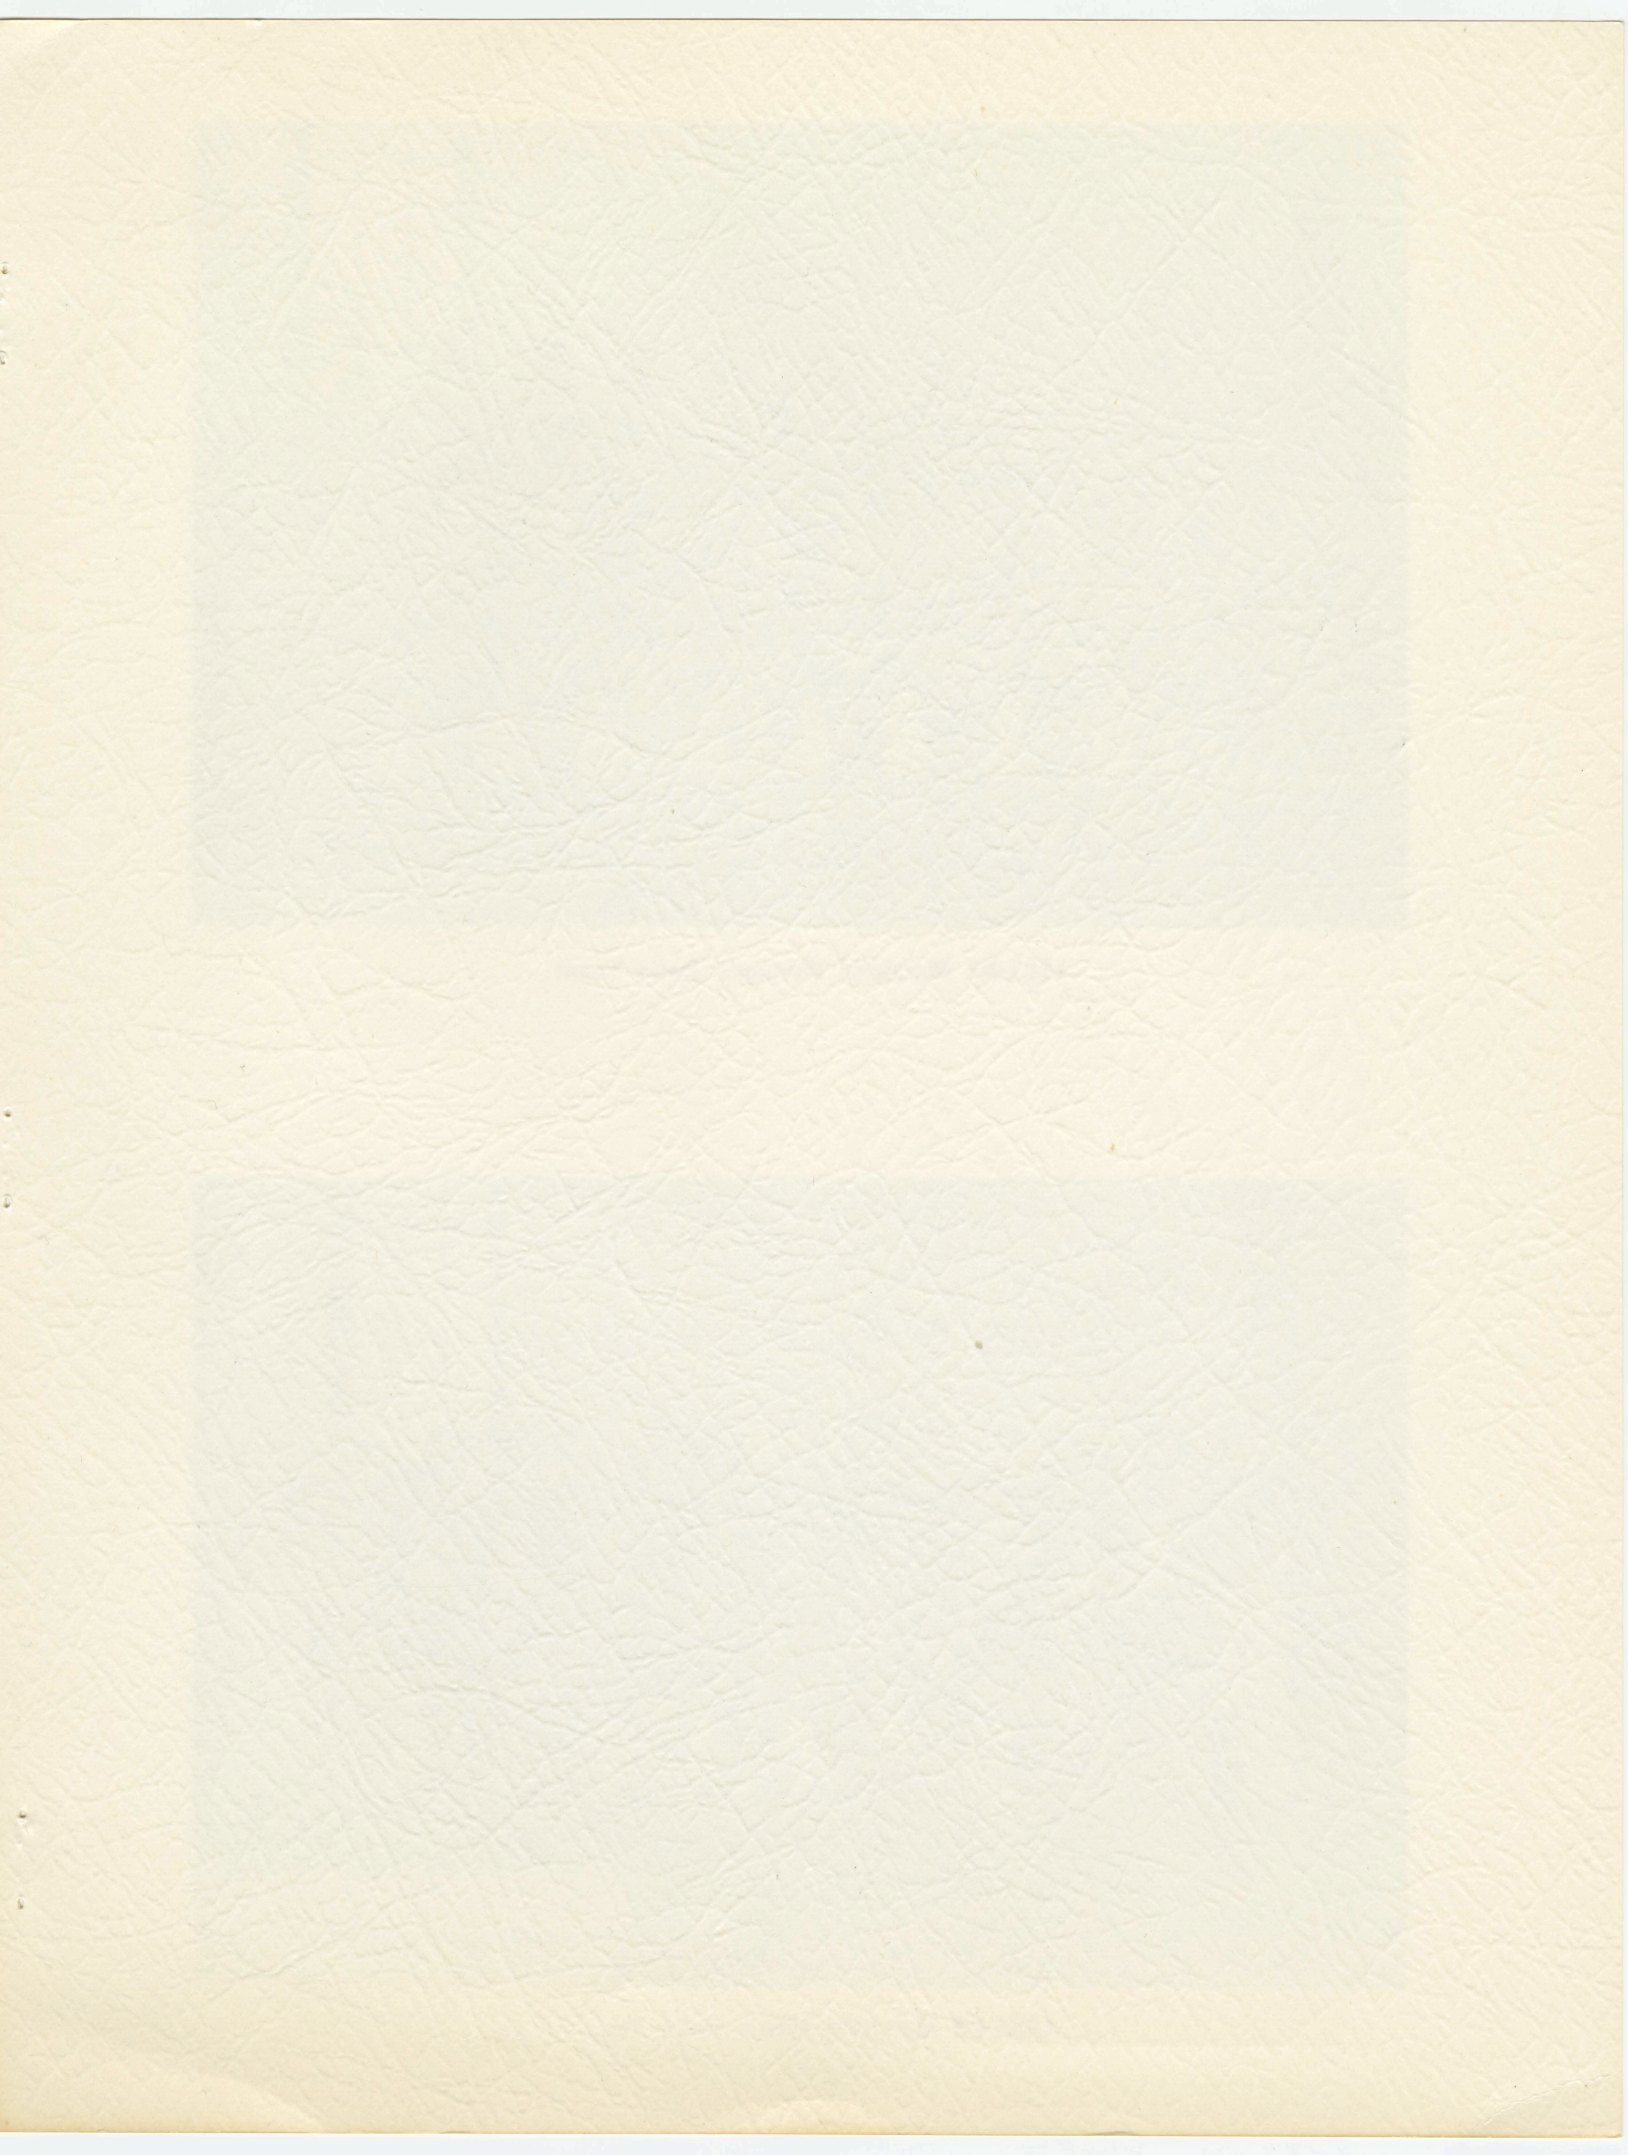

In 1856, at the prompting of a group of Maryland people, the state endowed a second institution, the Maryland Agricultural College, at College Park. A fire resulted in considerable damage to the College in 1912, and the state rebuilt it and took control of it. In 1920, the state took over the facility owned by the University of Baltimore and merged it with the state owned institution at College Park to form what is now the University of Maryland.

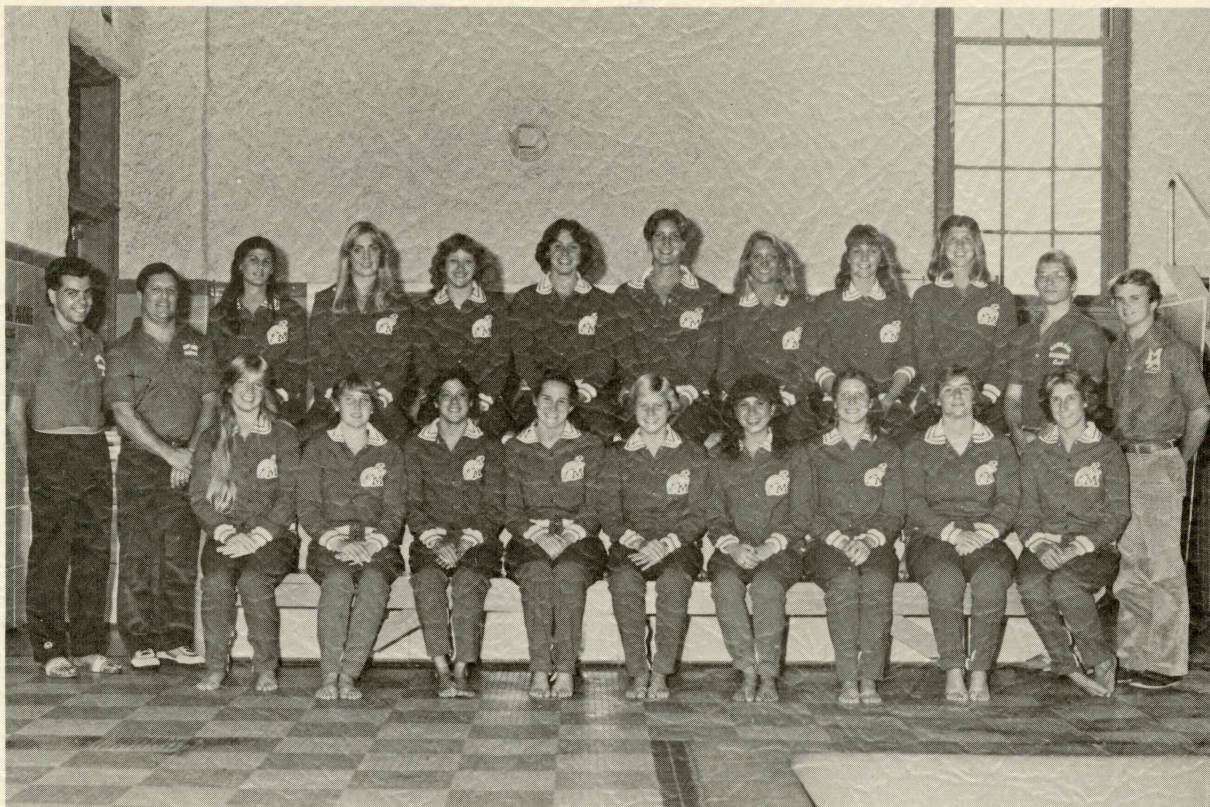

Today, the University of Maryland, a Georgian Colonial campus, has nearly 200 buildings across a 1300 acre setting. The campus has its own daily newspaper, its own police force, an 18-hole golf course, hotel, stores, movie house, theatre, art gallery, pub, bowling alley, tennis courts and swimming pools.

The University offers 125 majors and 15 pre-professional programs, in addition to an Honors Program. There are, as well, 81 graduate programs. The University is one of 51 members of the Association of American Universities. It is the 7th largest university in the country, and with a teacher-staff of over 6,000, its student-teacher ratio is 16:1. An undergraduate or graduate student receives a full commitment from the University, and the Athletic Department provides a full-time advisor for personal and vocational counseling for student-athletes.

Any student attending the University would enjoy a location which is the best of any college in the country. Right outside of Washington, D.C. and 35 minutes from Baltimore, the University is situated in the middle of a rich area of resources and intellectual talent. Nine miles away in the nation's capital, the Library of Congress, the Shakespeare Library, and National Libraries of Medicine and Agriculture avail the student of the country's best research facilities. The famous Kennedy Center is an example of the kind of cultural opportunity and entertainment offered by this major metropolitan area.
